SURAJ KAWALE

.NET FULL STACK DEVELOPER

Pune, Maharashtra | surajkawale429@gmail.com | +91 9209210138

PROFESSIONAL SUMMARY

.NET Full Stack Developer with 4+ years of experience in designing, developing, and deploying scalable enterprise web applications using Microsoft technologies. Experienced in building secure, high-performance applications using **C#, ASP.NET MVC, ASP.NET Core, Web API, SQL Server, React.js, Angular, and Azure.** Strong expertise in **RESTful API** development, database optimization, authentication, cloud deployment, and Agile software development. Proven ability to deliver end-to-end solutions, optimize application performance, and collaborate with cross-functional teams to deliver high-quality software within project timelines.

PROFESSIONAL HIGHLIGHTS

- **4+ years of experience** in .NET Full Stack Development.
- Strong expertise **in ASP.NET MVC, ASP.NET Core, C#, Web API, and SQL Server**.
- Hands-on experience in **React.js, Angular, JavaScript, TypeScript, HTML5, CSS3, and Bootstrap**.
- Experience developing ERP and Healthcare applications.
- Expertise in RESTful API development and third-party API integration.
- Good understanding of **Entity Framework, Dapper, LINQ, and NHibernate.**
- Experience in **Microsoft Azure App Services, Azure Storage, and CI/CD using Azure DevOps.**
- Knowledge of JWT Authentication, OAuth2, Identity Framework, and Role-Based Authorization.
- Strong knowledge of Agile methodologies including Scrum and Kanban.
- Experience with **Git, GitHub, Bitbucket, Azure DevOps, and Jenkins**.
- Skilled in performance optimization, code reviews, debugging, and production support.

TECHNICAL SKILLS

- **Programming Languages:** C#, VB.NET, JavaScript, TypeScript
- **Frameworks & Technologies:** .NET Framework, .NET Core, ASP.NET MVC, ASP.NET Core MVC, ASP.NET Web API, Entity Framework, LINQ, NHibernate
- **Frontend:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, React.js, Angular
- **Databases & ORMs:** SQL Server, MySQL, Oracle, MongoDB | Entity Framework, Dapper, NHibernate
- **Cloud & DevOps:** Microsoft Azure App Services, Azure Functions, Azure Storage, Azure DevOps, Jenkins, AWS (Basic Knowledge)
- **Testing & Quality:** NUnit, xUnit, Moq, Postman, Swagger, SonarQube
- **Version Control:** Git, GitHub, Bitbucket, Azure DevOps
- **Security:** JWT Authentication, OAuth2, Identity Server, Role-Based Authentication
- **Design Patterns:** MVC, Repository Pattern, Dependency Injection, Singleton Pattern
- **Other Skills:** REST APIs, SSRS Reports, Performance Optimization, Async Programming, Caching, IIS Deployment, Agile (Scrum, Kanban), JIRA

PROFESSIONAL EXPERIENCE

Code World Infotech Private Limited | *Software Developer*

Duration: June 2022 – Present

Roles & Responsibilities:

- Designed, developed, and maintained enterprise-level web applications using ASP.NET MVC, ASP.NET Core, C#, and SQL Server.

- Developed scalable RESTful APIs for web and mobile applications.
- Built responsive and user-friendly interfaces using React.js, Angular, HTML5, CSS3, Bootstrap, and JavaScript.
- Designed and optimized SQL queries, stored procedures, views, and database objects for improved application performance.
- Integrated third-party APIs and implemented secure authentication using JWT and Role-Based Authorization.
- Participated in complete Software Development Life Cycle (SDLC), including requirement gathering, design, development, testing, deployment, and maintenance.
- Collaborated with Business Analysts, QA teams, and clients to deliver high-quality software solutions.
- Performed code reviews and implemented coding best practices to improve maintainability and code quality.
- Managed source code repositories using Git, Azure DevOps, and Bitbucket.
- Deployed and maintained applications on IIS and Microsoft Azure App Services.
- Resolved production issues and provided post-deployment support.
- Participated in Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives following Agile methodologies.

Key Projects:

1. ESM-ERP

Description: ESM-ERP is an Enterprise Resource Planning application developed for medical equipment businesses to manage sales, inventory, invoicing, accounts, customer records, and SSRS reporting.

Environment: ASP.NET MVC | C# | SQL Server | SSRS | Entity Framework | Bootstrap | jQuery

- Developed Product Management, Sales, and Inventory modules using ASP.NET MVC and C#.
- Designed dynamic forms with client-side and server-side validations.
- Developed REST APIs to support business operations.
- Created complex SQL queries, stored procedures, and optimized database performance.
- Designed and customized SSRS reports for invoices, sales analysis, stock reports, and financial reports.
- Fixed production issues and implemented new business requirements.
- Participated in code reviews and application deployment.

2. Bariatric Surgery – Healthcare

Description: A healthcare management system that enables patients, doctors, and administrators to manage bariatric surgery treatment, appointments, health records, and long-term patient care through secure web applications.

Environment: ASP.NET Core | C# | React.js | NHibernate | SQL Server | REST API | Azure

- Developed backend services using ASP.NET Core Web API.
- Built responsive React.js dashboards for Patients, Doctors, and Administrators.
- Implemented secure authentication using JWT and Role-Based Authorization.
- Integrated NHibernate with SQL Server for efficient database management.
- Developed appointment scheduling, patient history, treatment plans, and notification modules.
- Consumed REST APIs and optimized application performance.
- Participated in unit testing, bug fixing, deployment, and production support.

EDUCATION

Master of Computer Applications (MCA)
Savitribai Phule Pune University
Year of Passing: 2021
